# Alu Lite Infoline

- a) Connect the octagonal rods two-by-two, using the supplied threaded joints.
- b) Should the grooves in the rods not align, simply loosen one rod half a turn and tighten the other rod.
- c) Connected the feet of your choice (round feet or slim feet)
- d) Attach the end caps

Connect two pairs of the longer beams using the supplied beam joints. Insert the plastic rails into the grooves of the remaining two beams. Attach these to the joint beams to form a square frame.

Attach the frame to the rods with the short beams as shown in the picture. Fasten the print with the Velcro at the top, stretch out and fasten at the bottom.
