Keepin' it simple

Safety products tend to get very complicated and expensive. Our aim is to innovate and produce personal safety gear from local materials, at great prices. The products are non-certified yet give most protection per spent money. Safety through direct protection and barriers against spreading of viruses.

MySafety Visor Light

Disposable, low-cost visor

Light weight visor for home nurses in home care, assembly personnel, shop staff etc. where there is no immediate threat of contamination. Head band made of carton and has a variable size with lockings on the back.

Made in Finland

Price: 1000 pcs 2480,00 EUR + tax

MySafety Exhale Guard

Disposable aerosol barrier for shop visitors

Ideal for shops that want their customers to feel safe. The dispenser for the exhale guards can be placed at the entrance of the shop. The MySafety Exhale Guard reduces the risk of airborne viruses from coughing, or particles spreading by sneezing.

Made in Finland

Price: To be added soon!

Show that you care

Protects people from undiagnosed illness that anyone might carry.

Reduced exposure to contaminated aerosols in public places.
